

# Selltis Mobile 2.0

*Selltis's philosophy is to partner with our clients, and not just sell them CRM software. Our latest innovation reflects the needs of our clients whether they are in the office or on the road. Here's a look at our new mobile features.*

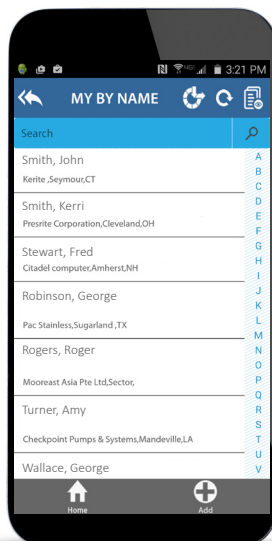

Selltis Mobile lets you quickly view and manage your Contacts, Companies, Opportunities, Expenses, Activities and Users while on the move. And our latest update to the Selltis Mobile App makes finding opportunities and selling more to existing customers as easy as the touch of a button. The new update also allows you to log and link email activity from your mobile device. Download it from the Apple Store or Google Play Store.

## With Selltis Mobile 2.0:

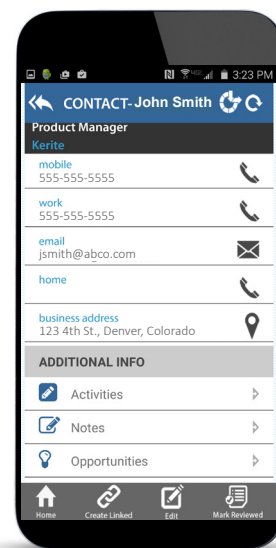

### Search, view & edit existing data

from your Selltis CRM account. Selltis Mobile makes it easy to do everything you would do in the office, on the road, meaning you can spend more time selling.

### Easily access contacts

right from your phone. Filter your list for quick retrieval.

### Open activities, quotes & opportunities within your contacts.

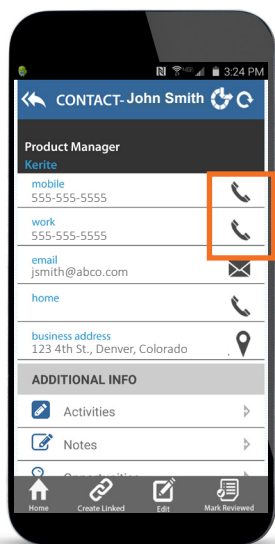

Quickly create new linked or unlinked data, such as a sales visit, phone call, new contact, quote or opportunity.

## Why Selltis?

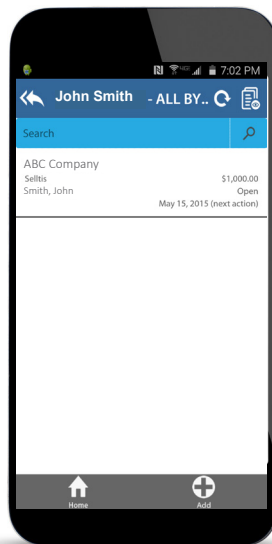

Selltis was built as an industrial market team-selling solution to share and leverage data from across your company: inside sales, outside sales, customer service, management, business partners and more. Selltis has more than 15 years serving the industrial market.

### Contact Selltis:

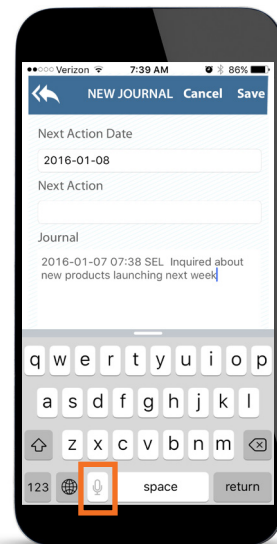

- 985-727-3455
- selltis.com
- sales@selltis.com

**Click the phone icon to quickly dial your contact.**  
When you reach out, the app will automatically create a "Call Placed" activity log.

**View all opportunities associated with a potential customer.**  
Quickly see and manage your pipeline in the field.

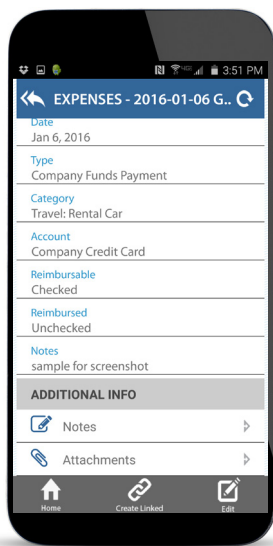

**Easily add new journals or log sales visits.**  
Type or use your phone's microphone feature to make notes.

"(Selltis CRM) was clearly and obviously designed by someone who knows our industry, who had worked in our environment and understood the focused functionality required to satisfy our specific needs."

- Mario Porrata-Franceschini, president, MRF Inc.

### Contact Selltis:

- 985-727-3455
- selltis.com
- sales@selltis.com

**Upload expenses & attach the receipt.**  
Link them with opportunities or customers so you can track your costs.

Selltis Mobile 2.0 allows for customizations to fit your business's unique needs.

Selltis Mobile 2.0 provides you with the functionality you need to uncover opportunities and keep sales moving no matter where you are.
